

Wesley V. Jarman Elementary School, Tulsa, Oklahoma

ScaleBlaster™ Model # SB-400 was installed in April of 2001.

The most impressive occurrence was the change noted in the commercial dishwasher. All ports are wide open and layers of calcium buildup are gone in the entire system. Normally these areas are clogged of limescale build-up.

Base of steamer shows matter expelled after ScaleBlaster™ was installed.

UNION PUBLIC SCHOOLS TULSA, OKLAHOMA

After a successful two-year experiment of a ScaleBlaster™ unit on Jarman Elementary School, Chuck Chapman, Operations Coordinator for Union Public Schools (Tulsa, OK) placed an additional order of units for all the remaining public schools in the district. The initial installation solved several hard water problems the school had experienced for over 11 years.

Chuck Chapman shows the interior of the commercial steamer after ScaleBlaster™ installation. Before, the area was clogged with limescale deposits. The following summer, they broke down their kitchen steamer to see how it looked. To their astonishment, all the internal parts looked like new and functioned accordingly.

SCALE BLASTER™

UNION PUBLIC SCHOOLS
INDEPENDENT DISTRICT NO. 9

Tulsa, OK 74133

Dear Jerry:

Thought you might be interested as to why we selected your ScaleBlaster product for the remaining schools in our district.

After testing the SB400 ScaleBlaster at our Jarman Elementary School almost two years, it was determined the unit definitely solved a number of problems we were having. This facility is twelve years old, and we were experiencing difficult scaling problems throughout the kitchen area.

After the first year of installation, the most impressive occurrence was the changes noted in our commercial dishwasher. All ports were wide open and layers of calcium buildup were all but gone on the entire system.

The following summer we broke down our kitchen steamer to see how it looked. To our astonishment, all the internal parts looked like new and functioned accordingly.

If we had doubts as to performance, the ScaleBlaster overcame our concerns.

Based on the above, we are placing our purchase order for ten more assorted models in our Union School District.

Sincerely,

Chuck Chapman
Operations Coordinator
